

HIKING RECOMMENDATION

NATURE TRAIL THROUGH THE FOREST «RONDON DE WALD»

Exactly 30 different species of trees, shrubs and plants have been discovered in the area, most of which are located along the path of the trail. All plant species are marked with a sign. The 30 signposts provide an overview of the characteristics of the respective tree or shrub in words and pictures. Interesting details can be accessed via the QR code on the informative panels. These are collected in a comprehensive brochure available for download. The nature trail is less than one kilometre long and can be completed in about one hour. If necessary, there are benches, tables and a barbecue area at Möösli with a stock of wood.

Places along the route

Haslen, Pfarrkirche – Haslen, fire brigade depot- Möösli – Finnenbahn, campfire site – Haslen, Feuerwehrdepot – Haslen, Pfarrkirche

Arriving with public transport

From Monday - Friday the post buses stop at the «Haslen AI, Dorf» bus stop. From there it is about 100 metres to the starting point of the trail. For more information check the [online-timetable](#).

On weekends you can reach the starting point of the trail with the so-called [PubliCar Appenzell](#).

Book your journey in advance via the PubliCar app or by phone (0848 55 30 60). The additional charge compared to a regular public transport ticket is CHF 5.-.
